At this date of adoption, **Adopter** agrees to assume all medical expenses, food, grooming and other costs associated with this dog. If this dog needs veterinary care within 2 weeks of its adoption, the **Adopter** agrees to either pay for the vet care himself or return the dog to TRI for a refund of the adoption fee. TRI will discuss the medical situation with the vet to determine if dog was adopted when undiagnosed.

The **Adopter** agrees that ownership of this dog is not transferable. The **Adopter** agrees that if for any reason he/she is unable to continue to house and care for the dog, or they no longer want the dog, the dog shall be returned to TRI at the expense of the adopter. Should the adopter have another possible home, this home must be vetted with an application, home visit and contract, same as the Adopter had to do complete. If dog is returned to TRI, it must be in a safe and approved manner. Dog will not be sold and is not being purchases for another person, agent or pet store.

Adopter agrees to treat this animal in a humane and loving way at all times, and to make sure that anyone caring for the dog will do the same. Adopter will provide a wholesome, premium dog food and have fresh water always available for the dog. Generic and store brand dog foods are not recommended nor are considered as premium food.

Invisible fencing is not approved for our fence requirement. We do require a 5 foot fully fenced yard. A Rescue dog is a high flight risk. Dog will need to be leashed in fenced area till adapts to home and yard. We ask that you not allow dog to be off leash outside of a fenced area. The stress of an injured dog, missing dog is not worth the stress or money to allow to happen.

Adopter understands that Tollers, Toller mixes, unknown breeds or rescue dogs are of a high flight risk during the first 30 days in a new home. If the said dog is loose or lost, TRI must be informed of immediately. We will provide search instructions and resources to help find the dog.

The **Adopter** agrees to provide this dog, and other pets owned with proper veterinary care as recommended by their veterinarian, for the rest of their lives. Heartworm medication must be given on a regular basis, as well as tick and flea treatments. You agree to take the said dog to your veterinarian at least 1 x a year. **Adopter** gives TRI permission to verify this care by contacting and talking with the adopter's veterinarian. It is recommended that you test the dog 6 months after adoption for heartworms, due to the heartworm process.

Unless waived by a board member, within six months of ownership, enrolls in and completes at least an eight week companion dog obedience course. "Eight weeks of training is better then Eight years of wishing you had"

This dog is being placed under the assumption it will live in the home. This dog is to never be left outside other than to play and potty, while you are home. The dog is to never be left outside alone when no one is home. Nor is it to be tied up to a box or tree. The dog must be returned to TRI if you can not keep in the home.
